**DIRECTIONS FOR USE:** 1. **Shake well.** 2. Pour into sprayer bottle and tighten sprayer to bottle. With bottle in upright position, turn spray nozzle away from you and adjust nozzle to desired spray pattern (spray, stream or fan). Apply an even, liberal coat of stripper to a small area (up to 3 ft x 3 ft). Leave the area and let the stripper do the work. 3. After 15 minutes, test scrape a small area to see if finish is ready for removal. Remove loosened finish by gently scraping in direction of wood grain with a plastic stripping tool. A toothbrush, toothpick or stripping brush will help remove old finish buried in recesses. Multiple coats or stubborn finishes may require repeat application. 4. Use a clean abrasive pad dipped in After Wash or Odorless Mineral Spirits to loosen remaining finish and remove any residue. Surface should be completely clean and dry before applying new finish.

**IMPORTANT:** Do not apply to floors or any other large surface areas because fire and health safety risks will increase dramatically. Always wear chemical-splash goggles and chemical-resistant gloves when handling this product. A dust mask does not provide protection against vapors. Dispose of product within 3 months of opening.

**DANGER! EXTREMELY FLAMMABLE. VAPORS MAY CAUSE FLASH FIRE OR IGNITE EXPLOSIVELY. KEEP AWAY FROM HEAT, SPARKS, FLAME, AND ALL OTHER SOURCES OF IGNITION.** Extinguish all flames and pilot lights, and turn off all stoves, heaters, electric motors and all other sources of ignition during use and until all vapors are gone. Do not smoke. Keep away from electrical outlets and switches. Beware of static electricity generated by synthetic clothing and other sources. **USE ONLY WITH ADEQUATE VENTILATION TO PREVENT BUILDUP OF VAPORS.** Do not use in areas where vapors can accumulate and concentrate such as basements, bathrooms and small, enclosed areas. If using indoors, open all windows and doors and maintain a cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience dizziness—STOP—ventilation is inadequate. Leave area immediately. **IF THE WORK AREA IS NOT WELL VENTILATED, DO NOT USE THIS PRODUCT.**

**DANGER! HARMFUL OR FATAL IF SWALLOWED. CAUSES BURNS. VAPOR HARMFUL.** Contains Acetone and Xylene. Reports have associated repeated and prolonged over-exposure to solvents with neurological and other physiological damage. The risk to your health depends on the level and duration of exposure. Intentional misuse of this product by deliberately concentrating and inhaling vapors can be harmful or fatal. Avoid breathing vapors or mist and contact with skin, eyes, and clothing. Do not swallow.
